

# STOKODERM®

**Helps to maintain healthy skin when working with both oil-based and water-based substances.**

## Description

STOKODERM® is a Before Work cream to help keep skin healthy when working with water-insoluble workplace substances such as carbon black, dust from castings, waste oil, adhesives containing solvents, various organic solvents, etc.

STOKODERM® is also effective when working with various UV lacquers including ones used in CD production, UV lacquers on a urethane acrylate basis and UV paper lacquers as found in printing technologies.

Contains the patented ingredient EUCORIOL®, whose astringent properties promote increased stability of the upper skin layer, especially when multiple hazards are involved.

STOKODERM® also has excellent skin-conditioning properties and is easily absorbed into the skin. The product is silicone free.

## Areas of Application

Due to its oil-in-water type emulsion, STOKODERM® can be used in a great variety of situations particularly when switching from oil-based to water-based hazards. It is ideal for machine shop use.

## Use

Wash and dry the skin thoroughly before each application of STOKODERM®. Carefully apply the product to the skin and spread evenly, making sure to cover areas between fingers and around fingernails. Apply before starting work and after breaks. Can also be used on the face.

## Packaging Sizes

100ml Tube - Stock # 2 85555 24

1000ml Softbottle (for use with STOKO VARIO® SVP or STOKO VARIO ULTRA® Dispenser) - Stock # 31146

## Product Description

White, perfumed, silicone-free cream. Emulsion type: oil-in-water.

pH level: 6.7 - 7.3

## First Aid

For external use only. If STOKODERM® accidentally enters the eyes, flush immediately with plenty of water.

Features	Benefits
Oil-in-water emulsion, formulated for use with both oil and water-based substances	Ideal for machine shops and other work settings where employees work with a variety of hazards
Easily absorbed into the skin	Leaves no greasy feel
Very good skin compatibility	Gentle to the skin, even with every day use
Silicone-free	Will not leave marks on paint or electronic parts

...keeping working skin healthy

### **Ingredients**

Water  
Ethylhexyl Stearate  
Glyceryl Stearate SE  
Glycerin  
Cetearyl Alcohol  
Sodium Bischlorophenyl Sulfamine  
Isopropyl Palmitate  
Glycol Distearate  
Xanthan Gum  
Ceteareth-6  
Phenoxyethanol  
Methylparaben  
Ethylparaben  
Propylparaben  
Butylparaben  
Isobutylparaben  
Ceteareth-25  
Fragrance

### **Proof of Efficacy Tests**

The strengthening action against water-based and water-insoluble workplace substances has been confirmed using in-vitro test methods such as the Czetsch-Lindenwald filter-paper membrane test.

The strengthening action against the UV lacquers mentioned has been confirmed in the leather cloth test (test model of Stockhausen GmbH & Co. KG, Krefeld, Germany, unpublished) and in practical use.

Its efficacy against changing workplace substances, such as Sodium Lauryl Sulfate (surfactants/detergents) and toluene (aromatic solvent) has been demonstrated in the Repetitive Irritation Test (RIT) of Frosch et al., Dortmund, Germany (1993).

### **Skin Compatibility**

STOKODERM® is proven to have very good skin compatibility, according to testing by the Department of Dermatology, Clinic Krefeld, Germany.

### **Storage Information**

STOKODERM® can be stored in a closed container for at least 30 months at room temperature.

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity.

### **Additional Information**

Frequent contact with workplace substances which stress the skin requires the use of special skin care products before, during and after work. STOKODERM® will help keep skin healthy when applied before tasks but skin should be cleaned with the proper skin cleanser and should also be regularly treated after work with a suitable conditioning product such as STOKO® Lotion, STOKOLAN® or STOKO® VITAN. This serves to nourish the skin by simultaneously providing the oils, moisture and water-retaining conditioners that it needs. Contact STOKO® Skin Care or its appointed distributors for advice on selecting the right combination of products for your skin care program.
