

Hand Drying Solutions

For Healthcare Facilities

WORLD DRYER

We know Healthcare Facility Washrooms

60+
years of
excellence

World Dryer, the leading global manufacturer of hand dryers, offers a full portfolio of fast, state-of-the-art hand dryers designed to fit the **healthcare facilities from medical clinics to hospitals**.

For more than 60 years, our products have set the industry standard by integrating leading technology, convenient functionality and attractive design to give every user an unparalleled experience. Our high-speed hand dryers deliver a faster, more effective drying experience while reducing operational costs.

Paper Towels v.s Hand Dryers

	Paper Towels	Hand Dryers	
Costs per month*	\$1.06 cents per hand dry	\$0.04 cents per hand dry	✓
Toilet blockage	Clogs toilet if disposed improperly	No problem	✓
Stocking management	Requires constant stocking and refilling	No need stocking and refilling	✓
Waste management	Trash cans require constant emptying	No maintenance needs	✓
Environmental friendly	Can't be recycled	No landfill issue	✓
Facility Images	Overflowing trash ruins your organization's image	Never have trash problem	✓

* Calculation is based on average paper towel cost of \$1.06 cents on 2 sheets per hand dry and average commercial electricity rate of \$0.10 KWH.

Why Hand Dryers for Your Healthcare Facility?

Hand Dryers Are Hygienic

Dr. Franklin R. Cockerill III at the Mayo Clinic in Rochester, Minnesota, conducted a randomized trial to determine the effects of four hand drying methods for removing bacteria from washed hands.

In a year-long study of 100 who volunteered to have their hands contaminated with bacteria, researchers found that there are no differences in the efficiencies of removing bacteria from washed hands when hands are dried using paper towels and hand dryers.¹

“
Unless paper towel waste is regularly cleaned, it can be a lasting source of bacteriological infection”

-- “The Drier Argument”. European Cleaning (September 1994): 63

Hand dryers today are automatic operating and incorporated with new antimicrobial technology inhibiting the growth of bacteria, mold, fungus and extending the dryer's service life. Additional features includes HEPA filter with odor neutralizing tablet to help reduce contaminants in the air.

¹“Effects of 4 Hand-Drying Methods for Removing Bacteria From Washed Hands: A Randomized Trial”. Mayo Clin Proc. 2000;75:705-708

Hand Dryers Need Less Maintenance

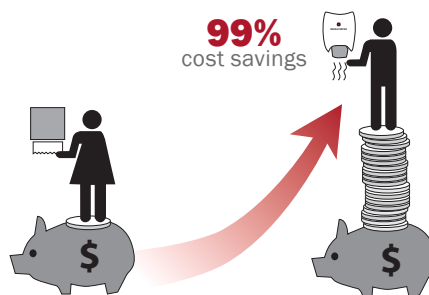

Overflowing trash cans and clogging toilets could ruin your healthcare hygienic image. By installing hand dryers, you could have peace of mind and not worry about all paper towel trash issues. No more constantly purchasing, stocking and refilling paper towels.

**LOWER MAINTENANCE MEANS
LESS FACILITY SERVICE
LABOR AND MORE BUSINESS
OPERATION COST SAVINGS.**

Hand Dryers Are More Economical

Reducing and controlling operating costs has become a necessity in this financially challenging environment. Simply replacing paper towel dispensers with hand dryers could eliminate costs up to 99%.

Hand Dryers Are Environmental Friendly

Hand dryers are paperless and environmental friendly. Paper towels can be made from recycled paper, but they can not be recycled again. They create millions of cubic feet of waste in landfills.

One ton of paper consumes 17 trees and pollutes 20,000 gallon of water. Paper towels can be made from recycled paper, but they can not be recycled again. They create millions of cubic feet of waste in landfills.

Hand Dryers Are Reliable and Safe

Over 60 years of excellence, World Dryer proudly continues featuring the longest lasting and most durable hand dryers.

ADA Compliant

Some hand dryers are qualified for ADA (Americans with Disabilities Act).

Ingress Protection

Protected against persons fingers over 12 mm and water sprayed from all directions.

SteriTouch®

Incorporates SteriTouch antimicrobial technology inhibiting the growth of bacteria, mold and fungus extending the dryer's service life.

Hand Dryers for Healthcare Facilities

Having a choice is a good thing.

Every restroom has its design challenges that require different needs and different solutions. You do your best to accommodate. At World Dryer, so do we. Competitively priced, World Dryer products are designed, engineered and manufactured to provide you with the most energy-efficient and powerful hand drying capabilities on the market today.

SMARTdri® Series

High-Efficiency Intelligent Hand Dryers

- 10 second dry time
- Intelligent on/off heating and 3-speed motor controls optimize energy efficiency and user comfort
- 2-3 times longer service life than competitive high speed dryers
- SteriTouch® antimicrobial technology inhibits the growth of bacteria, mold, fungus and extends the dryer's service life

SMARTdri *plus*

Single port nozzle for focused, high-intensity dry

SMARTdri

Multiport nozzle technology for a comfort dry

VMax®

High Speed Vertical Hand Dryer

- 10 - 12 second dry time
- 25% greater hand drying cavity opening provides comfortable dry without touching sides of hand dryer
- HEPA filter with odor neutralizing tablet reduces contaminants in the air
- Water collection reservoir reduces maintenance
- LED display for easy maintenance
- Quiet operation for sound sensitive areas
- Antimicrobial technology inhibits the growth of bacteria, mold, fungus and extends the dryer's service life

Airmax®

Classic Hand Dryers

- 15 second dry time
- Durable and vandal resistant
- Automatic or push-button operation; surface or recess mounted models
- Quiet operation for sound sensitive areas

SLIMdri®

High Speed Vertical Hand Dryers

- 15 second dry time
- Simplified installation reduces costs
- Up to 40% faster than leading competitive surface-mounted ADA compliant hand dryers
- Universal voltage (110-240 V)
- ON/OFF heat control to customize comfort and energy savings
- SteriTouch® antimicrobial technology inhibits the growth of bacteria, mold, fungus and extends the dryer's service life

AirStyle®

Heavy Duty Hair Dryers

- Designed for use in health clubs and locker rooms
- Surface or recess mounted models
- High-power 80 second drying cycle
- Durable and vandal resistant
- Adjustable swivel nozzle
